

Janice Gelb

Janice Gelb has wasted many hours on the fannish Internet, participated in numerous APAs, and worked on many conventions, notably running Program Operations at five worldcons, plus serving as Assistant Division Head of Events at ConFrancisco (the 1993 worldcon), and running the Hugo ceremony at LAcon III (the 1996 worldcon). She was the 1999 DUFF (Down Under Fan Fund) North American representative at the Aussiecon 3 worldcon. She liked the country and its inhabitants so much that in 2005, she moved to Melbourne. In the Real World, she is a senior developmental editor at Sun Microsystems.
